Which AI coding tool wins?

Claude Code

Anthropic · CLI-first

VS

Cursor

Anysphere · IDE-first

FEATURE COMPARISON

Feature	Claude Code	Cursor
Runs shell commands	✔	✖
Multi-file editing	✔	✔
Tab completion	✖	✔
Autonomous agents	✔	⊖
MCP tool support	✔	✔
Custom skills/prompts	✔	✔
Git integration	✔	✔

VERDICT

👉 Claude Code

Best for autonomous workflows

Terminal-native power users

Multi-agent orchestration

Full system access

\$200/mo Max plan

💻 Cursor

Best for inline editing

Visual diff previews

Tab completion speed

Familiar IDE feel

\$20/mo Pro plan

Different tools for different workflows. Most power users run both.
